KENNETH CLEVELAND
Executive Director

Message from the 2018 Program Committee

On behalf of the planning committee of the American Academy of Orofacial Pain's 42nd annual scientific meeting, it is my honor to invite you to the elegant Palmer House Hotel in Chicago, Illinois from April 26-29, 2018 for this exciting meeting; **Evidence-Based Treatment for Orofacial Pain: Consensus or Controversy.** The theme was chosen in recognition of the controversies that can exist concerning the standards of care for our discipline. Scientific advances are stimulating rapid and significant changes in our knowledge of orofacial pain etiologies and treatment modalities. It is incumbent upon us as clinicians, educators, and researchers who manage orofacial pain to be current with these evolving developments. The knowledge gained will alter our professional daily activities, ultimately providing the patients we serve with enhanced evidence based care.

We have assembled well-recognized speakers from both dentistry and medicine to enlighten us with their expertise regarding the controversies and new insights which exist in the practice of orofacial pain management. The program offers updates on diagnostic testing for neuropathic pain, arthralgia, myalgia, and imaging with CBCT and functional MRIs. Recommendations for needle and occlusal therapies and medications for CRPS and other orofacial problems are part of the program. This meeting will feature robust speaker panel discussions mediated by four visionary orofacial pain educators; Dr Eric Schiffman, Dr Jim Friction, Dr Gary Klasser, and Dr Jeff Okeson.

The breakfast and lunchtime sessions include treatment topics to expand one's practice; Botox, vertigo, headaches, cannabis, and sphenopalatine ganglion blocks. Each day one of these sessions is dedicated to the business side of an orofacial pain practice. In addition, we are offering three great preconference sessions. These include a Physical Therapy review course coordinated by our AAOP PT members and featuring as the primary speaker Cesar Fernandez de las Penas, PT, DO, PhD from Spain. Dr. James Friction and Dr. Joseph Cohen will present an outstanding course on the Economics of Running an Orofacial Pain Practice. Lastly, there is again a Sleep Medicine Course from our AAOP Sleep Apnea cadre led by Dr. Elmer Villalon and Dr. Mariona Mulet which is appropriate for both the new sleep apnea provider and those more experienced in providing treatment with dental sleep apnea appliances.

Our program strives to provide a translational approach to education where we bridge the gap between basic science and clinical applicability for all practitioners, both experienced and those just beginning their careers in orofacial pain management.

We look forward to meeting you in Chicago at the Palmer House Hotel. The Palmer House Hotel is an ideal venue for this meeting. It is a hotel restored to the opulence of Chicago in the 1850s and is centrally located in the best part of downtown Chicago. We feel that we have invited the very best presenters to provide an enthusiastic and provocative program at a great choice of venue, the Palmer House Hotel.

Please join us in Chicago April 26-29, 2017

Jeff Shaefer, DDS, MS, MPH
Chair, 2018 Scientific Annual Meeting

Rick Borquez, DDS
Co-Chair, 2018 Annual Scientific Meeting

AAOP MISSION STATEMENT

The American Academy of Orofacial Pain, an organization of dentists and other health care professionals, is dedicated to alleviating pain and suffering through the promotion of excellence in education, research, and patient care in the field of Orofacial Pain, TMD, Sleep Medicine and associated disorders.

Who Should Attend?

All interested dentists, physicians, physical therapists, researchers, mental health care professionals and other practitioners who diagnosis and treat orofacial pain disorders.

Accreditation Statement

The American Academy of Orofacial Pain is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing dental education programs of this program provider are accepted by AGD for Fellowship/Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry, or AGD endorsement. The current term of approval extends from 1/1/2015 – 12/31/2018. Provider #218197

Maximum total credit educational hours being offered at this conference are 25.6 (including core conference, preconference workshops, breakfast forums & lunch sessions). The core conference offers 15.6 CE hours. Each preconference offers an additional 6 CE hours, each breakfast forum provides 1 CE hour and each Lunch and Learn provides 1 CE hours. Each attendee should claim only those hours of credit that he/she actually spent in the education. Workshops, breakfast & lunch sessions all require additional registration.

Conference Clinical and Academic Learning Objectives

1. Learn about the relationships between nutrition and orofacial pain.
2. Understand concepts in TMD diagnosis and management.
3. Learn about the mechanisms associated with the transition from acute to chronic pain and identify patients at higher risk for developing chronic orofacial pain.
4. Understand the diagnosis and management of trigeminal nerve injuries and neuropathies.
5. Become informed about systemic conditions that may mimic orofacial pain disorders.
6. Become familiar with new emerging imaging techniques.
7. Explore the role of the dentist in sleep medicine and how to manage the refractive sleep apnea patient.
8. Understand the indications for appliance therapy and occlusal therapy in the management of TMJ arthralgia and myalgia conditions.

FACULTY

Joseph Alamat, DDS, MD, MS

PRELIMINARY PROGRAM OVERVIEW

WEDNESDAY, APRIL 25, 2018

ABOP Board Exams

Pre-Conference Workshops – (Additional Registration Required)

THURSDAY, APRIL 26, 2018

9:00 am – 4:00 pm

- I. **Myofacial Pain in the Head: To Needle or Not to Needle** – Cesar Fernandez de las Penas, PT, DO, PhD *Adams Room*
- II. **Sleep & Pain** – Elmer Villalon, DMD; Steven Bender, DDS, FAAOP, FAHS, FACP; Paul Grin, DDS, MPH; Andrew Smith, DDS; Davis Thomas, BDS, DDS, MSD *Monroe Room*
- III. **The Economics of Running an Orofacial Pain Practice** – James Friction, DDS, MS & Joseph R. Cohen, DDS *Chicago Room*

AAOP Committee Meetings

AAOP Council Meeting

FRIDAY, APRIL 27, 2018

7:00 – 8:00 am

Breakfast sessions – (Additional Registration Required)

- BREAKFAST SESSION 1** *Adams Room*
How to Achieve Success with Worker's Compensation Cases – Greg Goddard, DDS
- BREAKFAST SESSION 2** *Monroe Room*
An Orthodontist's Perspective in Treating TMD – Prasanna Kumar Shivapuja, BDS, MDS
- BREAKFAST SESSION 3** *Chicago Room*
How to Maximize Medical Coverage and Accelerate Reimbursement – Randy Curran

7:30 – 8:00 am *Exhibit Hall* Continental Breakfast with Exhibitors

8:00 am – 5:00 pm *Water Tower Parlor* Dental Assistants & Auxiliary Course – Catalina S. Morarasu, DDS, PhD, MS – Program Coordinator

8:00 – 8:15 am *Grand Ballroom* Welcome Remarks – Ghabi Kaspo, DDS AAOP President; Jeffry Shaefer, DDS, MS, MPH 2018 Program Chair; Rick Borquez, DDS 2018 Co-Program Chair

8:15 – 8:30 am *Grand Ballroom* Presentation of New Fellows & Introduction of New Members – Nojan Bakhtiari, DDS & Richard Townsend, DMD, MS AAOP Membership Chairs

PLENARY SESSIONS:

8:30 – 9:15 am *Grand Ballroom* **PLENARY 1** Keynote Presentation: Nerve Testing to Determine Treatment Expectations in Neuropathic Pain – John Zuniga, DMD, MS, PhD

9:15 – 10:00 am *Grand Ballroom* **PLENARY 2** Controversies in the TMJ Splint Therapy: Intra-Articular Pressures, Bite Force, and Splint Design – Harold Menchel, DMD

10:00 – 10:30 am *Exhibit Hall* Break with Exhibitors & Posters

10:30 – 11:15 am *Grand Ballroom* **PLENARY 3** The Critical Evaluation of Chronic Myalgia – Glenn Clark, DDS, MS

11:15 am – 12:00 pm *Grand Ballroom* **PLENARY 4** Pain Pharmacology: Opioids, NMDA Receptor Antagonists, and Sleep Medicines – Steven Richeimer, MD

12:00 – 12:15 pm *Grand Ballroom* Panel Discussion with Moderator Eric Schiffman, DDS, MS

12:15 – 1:30 pm Lunch on Your Own or Lunch & Learns (Additional Registration Required)

LUNCH & LEARN 1 *Adams Room* Occlusion, TMD & Orofacial Pain: Inter & Multidisciplinary Considerations – Michael Racich, DMD

LUNCH & LEARN 2 *Monroe Room* TX 360 Sphenopalatine Ganglion Block (lecture/demo) – Tian Xia, DO

LUNCH & LEARN 3 *Chicago Room* Assessment and Management of the Dizzy Patient in Dental Practice – Timothy Gibbs, PT, CCTT

Residents & Recent Grads Luncheon *TBD*

1:30 – 2:20 pm *Grand Ballroom* **PLENARY 7** New Translational Perspectives for The Standard of Care in Orofacial Pain – Marcela Romero-Reyes, DDS, PhD

2:20 – 3:20 pm *Grand Ballroom* **PLENARY 6** Orofacial Pain Disorders: Prospects of Alignment With Trends in Precision Medicine – Christian Stohler, DDS, PHD

3:20-3:45 pm *Exhibit Hall* Break with Exhibitors & Posters

3:45-4:40 pm *Grand Ballroom* **PLENARY 7** Needle Therapy for Myofascial Pain – Cesar Fernandez de las Penas, PT, DO, PhD

4:40 – 5:00 pm *Grand Ballroom* Panel Discussion with Moderator Dr. James Friction, DDS, MS

5:00 -5:45 pm *Grand Ballroom* AAOP General Membership Meeting

5:45-6:00 pm *Grand Ballroom* New Members and Fellow Orientation

6:00-9:00 pm *Empire Room* Presidents Reception

SATURDAY, APRIL 28, 2018

7:00-8:00 am **BREAKFAST SESSIONS:** (Additional Registration Required) **BREAKFAST SESSION 4** *Adams Room* Headache Case Studies – Richard Hirschinger, DDS, MBA

BREAKFAST SESSION 5 *Monroe Room* Swallowing, Hyoid Function and Airway – Ronald Auvenshine, DDS, PhD

BREAKFAST SESSION 6 *Chicago Room* Practice Pearls for Patients with Sleep Disorders – Davis Thomas, BDS, DDS, MSD, MSc Med

7:30-8:00 am *Exhibit Hall* Continental Breakfast with Exhibitors & Posters

8:15-8:20 am *Grand Ballroom* Welcome Remarks and Awards – Ghabi Kaspo, DDS AAOP President Recognition of David Keith, BDS, FDSRCS, DMD and Charles Greene, DDS

PLENARY SESSIONS:

8:20-9:10 am *Grand Ballroom* **PLENARY 8** Anesthesia: Nerve Blocks for The Treatment of Orofacial Pain – Tara Renton, BDS, PhD

9:10-9:55 am *Grand Ballroom* **PLENARY 9** What Does PSG Tell Us About Sleep Apnea Morbidity and Disease Prognosis that the AHI Cannot – Ali Azarbarzin, PhD

9:55 -10:20 am *Exhibit Hall* Break with Exhibitors & Posters

10:20-11:00 am *Grand Ballroom* **PLENARY 10** Predicting Responders to Mandibular Advancement Splints: From the Physiological Laboratory to the Clinical Setting – Ali Azarbarzin, PhD

11:00-11:55 am *Grand Ballroom* **PLENARY 11** Radiographic Imaging for Orofacial Pain & Sleep-Disordered Breathing – Dania Tamimi, BDS, DMSc

11:55 am-12:15 pm *Grand Ballroom* Panel Discussion with Moderator Gary Klasser, DMD

12:15-1:30 pm Lunch on Your Own or Lunch & Learns (Additional Registration Required)

LUNCH & LEARN 4 *Adams Room* Alternative Treatments for Opioid therapy: Cannabis Options – Lori Reisner, PharmaD

LUNCH & LEARN 5 *Monroe Room* Medicare Billing for the OFP Provider – Lesia Crawford

LUNCH & LEARN 6 *Chicago Room* Botulinum Toxin for Management of Refractory Masticatory Muscle Pain: Efficacy, Safety and Technique – Khawaja S Nasir, BDS, MSc

PLENARY SESSIONS:

1:30-2:30 pm *Grand Ballroom* **PLENARY 12** Management of the TMD/Neuropathic Pain Patient with Medications – Lori Reisner, PharmaD

2:30-3:30 pm *Grand Ballroom* **PLENARY 13** Empowering your Patient via The Mind-Body Connection and The Epidemiology of TMD Pain: Further Perspectives from OPPERA – Richard Ohrbach, DDS, PhD

3:30-4:00 pm *Exhibit Hall* Break with Exhibitors & Posters

4:00-5:00 pm *Grand Ballroom* **PLENARY 14** The Pathophysiology of Chronic Pain: Treatment Modalities for The Patient with CRPS – Jay Joshi, MD

5:00-5:20 pm *Grand Ballroom* Panel Discussion with Moderator Jeffrey Okeson, DMD

SUNDAY, APRIL 29, 2018

8:00am-8:30am *State Room* Continental Breakfast

8:30-9:00 am *Grand Ballroom* **AAOP Sponsored Research**

PRESENTER 1 Guided Music Listening: A Promising Approach for the Treatment of Orofacial Pain Due to Temporomandibular Disorders – Iacopo Cioffi, DDS, PhD

PRESENTER 2 *TBD*

PLENARY SESSIONS:

9:00-9:45 am *Grand Ballroom* **PLENARY 15** Upper Cervical Spine and Patient & Provider Expectations on Autonomic Nervous System Function – Mark Bishop, PT, PhD

9:45-10:30 am *Grand Ballroom* **PLENARY 16** Brain as a Therapeutic Target in TMD/Orofacial Pain - The Next Frontier in Precision Pain Medicine as Health Technology – Alexandre DaSilva, DDS, DMedSc

10:30 am-12:00 pm *Grand Ballroom* **PLENARY 17** Novel Approaches to the Management of Daytime Bruxism and Facial Pain – Joseph Alamat, DDS, MD, MS

12:00 pm *Grand Ballroom* Closing Remarks and Preview of 2019 Program

FRIDAY, APRIL 27 & SATURDAY, APRIL 28, 2018

8:00 am – 5:00 pm Water Tower Parlor

Dental Assistants TMD Course Catalina Morarasu, DDS, PhD, MS – Course Director

PRECONFERENCE WORKSHOPS

Preconference workshops I-III will be held on Thursday, April 26, 2018 prior to the AAOP Core Scientific Meeting. These full day workshops require additional registration.

THURSDAY: APRIL 26, 2018

Pre-conference I: Myofascial Pain in the Head: To Needle or Not to Needle

Adams Room

9:00 am – 4:00 pm

Program Fee: \$290.00

Presenter: Cesar Fernandez de las Penas, PT, DO, PhD

SYNOPSIS: Dry needling is the most expanded intervention for the management of myofascial pain (Dommerholt & Fernández-de-las-Peñas, 2013). The application of trigger point (TrP) dry needling is based on the rationale that TMD pain can be related to myofascial TrPs. The Diagnostic Criteria for Temporomandibular Disorders (DC/TMD) includes the following myalgia diagnosis: local myalgia, myofascial pain and myofascial pain with referral (Schiffman et al, 2014). There is a clear analogy between the diagnosis of myofascial pain with referral and myofascial TrPs (Simons et al. 1999). In fact, there is some evidence suggesting that myofascial TrPs are present in patients with TMD pain (Fernández-de-las-Peñas et al., 2010). This lecture will discuss the role of TrPs in the masticatory muscles and TMD pain and the application of TrP dry needling following a proper clinical reasoning. Several systematic reviews and meta-analyses have found that TrP dry needling may be effective for the management of different pain conditions of the upper quadrant (Boyles et al., 2015; Liu et al., 2015; Gattie et al., 2017); however, it is important to consider that dry needling should be applied in combination with other interventions, and not just as an isolated therapeutic approach (Liu et al 2017). The effectiveness of a multidisciplinary manual therapy program including TrP dry needling for TMD has been reported (González-Iglesias et al 2013; Butts et al., 2017). In fact, no significant differences between TrP-DN and lidocaine injection at short- and mid-term follow-up periods were found confirming that the therapeutic effect is related to the needle and not to any particular substance.

Pre-Conference II: Sleep and Pain

Monroe Room

9:00 am – 4:00 pm

Program Fee: \$290.00

Presenters: Elmer Villalon, DMD; Steven Bender, DDS, FAAOP, FAHS, FADC; Paul Grin, DDS, MPH; Andrew Smith, DDS; Davis Thomas, BDS, DDS, MSD

SYNOPSIS: This year's AAOP Sleep Medicine Pre-Conference has a varied listing of topics which include both reviews and updates. As is customary for this program both sleep and pain are the emphasis of the varied presentations.

To adequately understand sleep mechanisms and sleep neuroscience the clinician has to have a good understanding of the nervous system itself. Dr. Paul Grin will be doing a review of the neuro-exam and how the function and or dysfunction of the cranial nerves interplay with normal sleep and sleep disturbance.

For the orofacial pain clinician it is imperative to recognize the presence of SRBDs in their pain patients so that appropriate clinical management to be implemented. Dr. Davis Thomas will review Sleep Related Breathing Disorders for those individuals who may be new to the field of sleep medicine and the sleep pain paradigm. He will also present on literature updates for Obstructive Sleep Apnea (OSA) and how it may pertain to the management of an orofacial pain patient.

Dr. Andrew Smith will review the literature on sleep and chronic pain. How the two disorders are associated differs from person to person. Is pain an expression of, or made worse by, a sleep disorder and or sleep disturbance or is pain itself creating the poor quality of sleep? As such it is important to make the distinction to adequately address your patient's sleep/pain issues.

Dr. Steve Bender will do an update on sleep bruxism and how OFP clinicians need to address this, at times, very problematic issue.

Elmer A. Villalon, DMD will review two articles of the current literature. Review articles are yet to be determined.

Pre-Conference III: The Economics of Running an Orofacial Pain Practice

Chicago Room

9:00 am – 4:00 pm

Program Fee: \$290.00

Presenters: James Friction, DDS, MS & Joseph R. Cohen, DDS

SYNOPSIS: To help practitioner achieve both clinical and business success of clinical practices in the field and to improve access to care for these patients.

1. Enhance business success of participating clinicians by integrating best practice business services for each clinic. These services include understanding electronic medical records, revenue cycle management, business development, marketing, bundled services, third party contracting for services, human resources management, and practice assets provided by each clinic.
2. Enhance clinical success of participating clinicians by providing training in clinical protocols that are profitable and evidenced-based, patient-centered, integrative, and transformative in providing care for the wide range of orofacial disorders and to document successful outcomes of the care.
3. Learn to implement these clinical and business best practices to help participating dentists develop a high quality financially successful practice with consistent evidence-based care, marketing of services, shared electronic health records, consistent documentation, improved reimbursement, and detailed dentist and staff training.

4. Increase access to care for patients with orofacial disorders by bringing together clinics into a network to provide comprehensive services to the clinics and ensure their success in caring for these patients.

BREAKFAST SESSIONS

These sessions include a plated breakfast and CE lecture that requires additional registration of \$80.00 per session. On Friday and Saturday there are two breakfasts that run concurrently each day. Please select only session for each day as you will only be able to attend one session each day. These sessions offer a smaller setting and therefore registration is limited. Each session offers 1 hour of CE.

FRIDAY, APRIL 27, 2018

7:00 am – 8:00 am

BREAKFAST SESSION 1

Adams Room

How to Achieve Success with Worker's Compensation Cases

– Greg Goddard, DDS

This presentation will discuss how to use your orofacial pain expertise to add a new dimension to your practice by evaluating and/or treating injured workers. All 50 states have evaluations of injured workers. Injuries to the head and neck often result in TMD, trigeminal and facial nerve injuries, facial fractures, facial lacerations and teeth injuries that may result in disability, and/or treatment. Injuries to other parts of the body can have compensable consequences to the orofacial region through chronic pain, disturbed sleep or the effects of medication. Oral Facial Pain specialists have the necessary skills to perform these evaluations.

BREAKFAST SESSION 2

Monroe Room

An Orthodontist's Perspective in Treating TMD

– Prasanna Kumar Shivapuja, BDS, MDS, DDS, MS

OBJECTIVES:

Will briefly discuss the causative factors of TMJ disorder at an orthodontic prospective. Will discuss indications and contra indications and long term follow-up of:

1. Orthodontics only in treatment of TMD
2. Orthodontics and equilibration in treatment of TMD
3. Orthodontics and orthognathic surgery in treatment of TMD
4. Orthodontics, joint surgery and orthognathic surgery in treatment of TMD
5. Will discuss how to identify patient with low tolerance for occlusal disharmony

During the lecture appropriate literature will be presented to support treatment executed and contrary literature will also be presented.

BREAKFAST SESSION 3

Chicago Room

How to Maximize Medical Coverage and Accelerate Reimbursement

– Randy Curran

OBJECTIVES:

- Understanding today's medical insurance and policy changes
- Documentation needed to speed up the preauthorization process
- Workflow analysis to accelerate reimbursement
- Fee for service model versus a true medical billing model
- Pros and cons of going in network
- Trending reimbursements by insurance carriers
- Techniques to maximize CBCT reimbursement
- How to improve financial side of case presentation

SATURDAY, APRIL 28, 2018

7:00 am – 8:00 am

BREAKFAST SESSION 4

Adams Room

Headache Case Studies – Richard Hirschinger, DDS, MBA

A patient was diagnosed with hemicrania continua but they don't respond to indomethacin. What next? A patient complains of pain with chewing and it is getting progressively worse. It is simply myalgia or something else? How can you quickly assess this patient? What one word helps differentiate a migraine from a cluster? What are simple acronyms you can use to remember the ICHD criteria for migraine, for TTH, for the TAC's and for the Other primary headaches? Learn all of this and more during breakfast with Dr. Hirschinger.

BREAKFAST SESSION 5

Monroe Room

Swallowing, Hyoid Function and Airway – Ronald Auvenshine, DDS, PhD

SYNOPSIS: Snoring, Upper Airway Resistance Syndrome (UARS), and Obstructive Sleep Apnea (OSA), are gaining more attention in the field of dentistry since they fall within the spectrum of Sleep Related Breathing Disorders (SDB). More articles are appearing in the dental literature concerning SDB and the dentist's role in diagnosis, treatment, and management of these disorders. Sleep disorder breathing varies greatly in its clinical presentation. This requires the dentist who chooses to treat SDB to be thoroughly familiar with the developmental anatomy and physiology of the pharynx and the relationship of the stomatognathic system with the physiology of swallowing. This presentation will include a discussion of the embryology of the airway and the

PRECONFERENCE WORKSHOPS

neuroanatomy and neurophysiology of swallowing and the role of speech and the distention of the larynx in humans. The unique features of modern man's oropharynx will serve as an introduction to the topic of SDB.

OBJECTIVES:

- To review the embryology of the oral stomatognathic system
- To review the cranial nerves which innervate the region
- To become familiar with the various factors which make the pharynx of humans unique in the animal kingdom
- To become more familiar with the role of the hyoid bone and its relationship to swallowing and maintenance of the upper airway
- To become more familiar with the use of Cone Beam CT (CBCT) in evaluating airway

BREAKFAST SESSION 6

Practice Pearls for Patients with Sleep Disorders

– Davis Thomas, BDS, DDS, MSD, MSc Med

SYNOPSIS: Dr Davis Thomas teaches sleep medicine at Rutgers School of dentistry's orofacial pain program. During this session he will discuss the use of sleep medications to manage sleep disorders, the interaction of pain and sleep, as well as his practice "pearls" for the use of oral appliances to treat sleep apnea

Chicago Room

LUNCH & LEARN SESSIONS

These sessions include a buffet lunch and CE lecture that requires additional registration of \$85.00 per session. On Friday and Saturday there are three Lunch Sessions that run concurrently each day. Please select only one session for each day as you will only be able to attend one session each day. These sessions offer a smaller setting and therefore registration is limited. Each session offers 1 hour of CE.

FRIDAY, APRIL 27, 2018

12:15 pm – 1:30 pm

LUNCH & LEARN 1

Occlusion, TMD & Orofacial Pain: Inter & Multidisciplinary Considerations

– Michael Racich, DMD

Occlusion is defined by the Glossary of Prosthodontic Terms as "The static relationship between the incising or masticating surfaces of the maxillary or mandibular teeth or tooth analogues." while gnathology is defined as "The study of the biology of the masticatory mechanism." Patients present to dental offices for three main reasons: appearance, function and comfort. Today's dental teams are more capable than ever to facilitate enhancement in all three of these areas for patients seeking care. This evidence-based presentation will explore the relationship of the stomatognathic system gnathologically re: TMD/orofacial pain. Practical inter- and multidisciplinary recommendations for the TMD/orofacial pain practitioners will be offered. The learning objectives will be:

1. evidence-based care (what, why, when)
2. occlusion: what it is and is not
3. gnathology as related to:
 - a) patient management
 - b) restorative dentistry/ prosthodontics
 - c) parafunction
 - d) orofacial pain/TMD
 - e) orthotics
4. concluding remarks and practical clinical take home messages

Adams Room

LUNCH & LEARN 2

TX 360 Sphenopalatine Ganglion Block (lecture/demo) – Tian Xia, DO

To help practitioners managing severe headaches with a new technology and procedure – Utilizing Tx360 to perform Nerve block of Pterygopalatine Ganglion branch of Trigeminal Nerve.

Monroe Room

OBJECTIVES OF THE COURSE:

1. Review of Anatomy and Physiology of Pterygopalatine Ganglion/ Sphenopalatine Ganglion.
2. Illustrate the techniques of Nerve Block of Pterygopalatine Ganglion branch of Trigeminal Nerve with Tx360 device.
3. Discussion of Headache prevention with Tx360 technology when used in repetitive nerve blocks for Pterygopalatine Ganglion branch of Trigeminal nerve.

LUNCH & LEARN 3

Assessment and Management of the Dizzy Patient in Dental Practice

– Timothy Gibbs, PT, CCTT

This lunch and learn session will cover the examination and treatment of dizziness frequently encountered in dental and TMD practices. Many vestibular conditions are easily diagnosed and treated. The patient's head position during dental treatment can often cause Benign Paroxysmal Positional Vertigo (BPPV). Participants will learn effective bedside treatment of BPPV through recognition of nystagmus patterns. Additionally, other potential causes of dizziness, including Vestibular Hypofunction, Cervicogenic Dizziness, Central Nervous System Disorders and Migraine Associated Dizziness will be discussed.

Chicago Room

SATURDAY, APRIL 28, 2018

12:15 pm – 1:30 pm

LUNCH & LEARN 4

Alternative Treatments for Opioid therapy: Cannabis Options

– Lori Reisner, PharmaD

The discussion will focus on medications used in the management of orofacial pain and clinical pearls associated with their use. Medications for neuropathic pain will be emphasized. Considerations for use will include drug-drug interactions and any new evidence for their relative effectiveness.

Adams Room

LUNCH & LEARN 5

Medicare Billing for the OFP Provider – Lesia Crawford

Medicare DME is nothing to be afraid of, the rules are outlined and are not as intimidating as its bad reputation would lead you to believe. Join Lesia Crawford from GoGo billing for a lunch and learn where she will break down the specific requirements by Medicare and review the required forms needed to be in compliance. Even if you are not billing OAT to Medicare, your cases should be Medicare proof as most commercial plans turn to Medicare when setting their own guidelines for coverage. Also learn the secrets to unlocking maximum reimbursement for your Medicare patients, not all plans are created equal. Sample forms will be provided.

Monroe Room

LUNCH & LEARN 6

Botulinum Toxin for Management of Refractory Masticatory Muscle Pain:

Efficacy, Safety and Technique – Khawaja S Nasir, BDS, MSc

- Overview of the mechanism of action of botulinum toxin
- Review of the present literature on the effectiveness and safety of botulinum toxin for management of refractory masticatory myalgia
- Selecting appropriate patients for management of refractory masticatory myalgia, and predictors of response
- Technique for injecting botulinum toxin into masticatory muscles for management of pain.

A review of current literature on the mechanism of action of botulinum toxin and its efficacy and safety for management of refractory masticatory myalgia. In addition, overview of technique for injecting masticatory muscles, and selecting appropriate patients of refractory masticatory myalgia for botulinum toxin injection therapy.

Botulinum toxin is a neurotoxin that has recently gained popularity in management of chronic pain disorders, including refractory masticatory muscle pain disorders. This lecture will present the current literature on the mechanism of action of botulinum toxin, and its efficacy and safety for management of refractory masticatory myalgia. In addition, it will review the technique for injecting masticatory muscles, and selecting appropriate patients of refractory masticatory myalgia for botulinum toxin injection therapy.

Chicago Room

DENTAL ASSISTANT AND AUXILIARY PROGRAM

Dental Assisting and Patient Management in the Orofacial Pain Practice

Water Tower Parlor

Program Fee: \$300.00

Dates: April 27 – 28, 2018

Time: 8:00 am – 5:00 pm

The Academy of Orofacial Pain is proud to continue providing courses for the assistants and auxiliary of facial pain and TMD practices. The course will enhance the staff's ability to improve the office outcome and increase patient flow by decreasing the time TMD and facial pain practitioners spend with patients thereby increasing office productivity.

Course Director: Catalina Morarasu, DDS, PhD, MS

DENTAL ASSISTANT AND AUXILIARY PROGRAM SCHEDULE

FRIDAY, APRIL 27, 2018

| | |
|--------------------|--|
| 7:30 – 8:00 am | Registration and Continental Breakfast |
| 8:00 – 9:00 am | Clinical Examination in TMD and Orofacial Pain: Clinical Examination (hands-on). <i>William Butcher, DDS, MS, Diplomate ABOP</i> |

CALL FOR POSTER PRESENTATIONS

2018 Poster Committee Chair:

Mariona Mulet, DDS, MS Email: mulet001@umn.edu
St. Paul, MN Phone: 651-641-6249

General Information

The AAOP invites members and non-members to submit abstracts to be considered for poster presentation at the AAOP 2018 Annual Scientific Meeting at the Hilton Palmer House Hotel, in Chicago, IL. Meeting dates are April 26-29. Poster display dates are April 27-28, 2018. Abstracts should report completed investigations that contribute to education, research, and/or clinical practice. The presenting author of an accepted abstract must register for the meeting and is required to be present at the requested time by the organizing scientific committee.

Submission Deadline:

All abstracts must be received by January 31, 2018. They should be submitted by email to AAOP central office; admin@aaop.org. and to Mariona Mulet Pradera; mulet001@umn.edu. AAOP will confirm receipt of the abstract within a week. If you do not hear from AAOP, please send a follow up email.

Criteria for Selection

- Abstracts must be original scientific material that has not been previously published or presented at any other national or international meeting.
- The scientific committee will give high preference to original clinical or basic research abstracts of Randomized Controlled Trials and Observational Studies (Cohort study, Case control study).
- Case reports may be accepted only if the scientific committee determines that the material presented is of high interest and high quality information.

Formatting

- The body of the abstract must not exceed 250 words, including references, but excluding title and authors. If the abstract exceeds 250 words, it will be returned to the author to shorten it.
- The body of the abstract must contain the following eight sections IN THIS ORDER and labeled as noted:

Title: (Title text should be in bolded font. Capitalize the first word and all proper nouns contained in the title and sub-title. Do NOT use all capitals. Clearly indicate the nature of the study in the title (i.e.: case-control, randomized controlled trial, etc.)

Author(s): (Authors should be listed by last name, followed by first name initials, after the abstract title. The name of the presenting author should be underlined)

Affiliations: (Indicate any affiliations to a University/College or Private Practitioners and city)

Aim of Investigation: (aims/purpose, hypotheses, and goals of the investigation)

Methods: (brief description of experimental procedures including statistics, study design and analysis)

Results: (findings of statistical analysis)

Conclusions: (one or two major conclusions that are supported by results)

Acknowledgements and/or Funding Source: (include reference to grant support, including grant number, and disclosure of any financial relationship the author may have with the manufacturer/supplier of any commercial products or services)

Additional Formatting Requirements

- Abstracts must be written in English language.
- Font should be Times New Roman, font size should be 12, and font color should be black.
- No tables or illustrations may be included in abstracts.
- Only generic drug names should be used.
- Results and conclusions should be included at the time of submission. If these are missing, the abstract will be rejected.

All accepted submitters are required to register for the meeting.

All submissions will be reviewed by the AAOP Abstract Committee.

DEADLINE: January 31, 2018

(late submissions will not be considered)

NOTIFICATION SENT: February 28, 2018

GENERAL INFORMATION

HOW TO REGISTER

You may register by completing and mailing or faxing the Conference Registration form to the AAOP office or register online through the AAOP website (www.aaop.org). **AAOP members must login to the website prior to attempting register for the meeting online in order to receive the member discount and be recognized as a member registrant.**

The registration fee includes: admission to the April 27-29, 2018 plenary scientific sessions, daily continental breakfast, refreshment breaks, and the President's Reception on Friday evening. **Additional fees are required for April 26th preconference workshops and the April 27th & 28th breakfast sessions and lunch sessions.** Please forward any dietary restrictions to aaopexec@aaop.org.

EXHIBITS

Educational and informational displays of companies relevant to the treatment of orofacial pain and/or your practice will be available for viewing and interaction during the conference.

PHYSICAL CHALLENGES

The American Academy of Orofacial Pain wishes to ensure that no individual with a disability is excluded, denied services, segregated or otherwise treated differently than other individuals because of the absence of auxiliary aids or services. If you need any auxiliary aids or services identified in the American with Disabilities Act, please contact Kenneth Cleveland, AAOP Executive Director, at 609-504-1311, or email aaopexec@aaop.org

ATTIRE

Attire for the conference is business casual. Meeting room temperatures often vary during the course of the meeting, so please plan accordingly.

QUESTIONS

If you have any questions or need additional information, please contact the AAOP office at:
609-504-1311 or admin@aaop.org.

HOTEL INFORMATION

The AAOP 2018 Scientific Meeting will be held at the Hilton Palmer House in Chicago, IL. AAOP has secured a rate of \$199.00++/night single and double occupancy for this meeting. This room block is being held until April 1, 2018. After this date or when the block is full, reservations will be at the market rate and subject to availability, so make your reservations early by booking online via our custom meeting weblink: or the AAOP website at www.aaop.org and select the meetings tab/AAOP 2018 or call 1-800-HILTONS and reference code ASM.

The Hilton Palmer House is located at
17 E. Monroe St., Chicago, IL 60603.

The Palmer House, a Hilton Hotel is located in the financial, business, theatre and cultural districts as well as being steps to shopping along State Street. Leisurely wander through Millennium Park, peruse the Art Institute of Chicago, take in a show at the theatre district and dine at many fine restaurants. Take a short cab

ride to shop on the Magnificent Mile, catch a game at the United Center, Wrigley Field or Guaranteed Rate Field, see the stars at Adler Planetarium—and so much more. Located in the Loop, you will experience a historic hotel in terrific area of the city. As America's longest operating hotel, we were the first to incorporate the light bulb, vertical steam powered railroad (elevator), telephone and even invented the brownie. Having completed a top to bottom \$215M restoration, you will experience guest rooms and suites with modern conveniences like the HCN Navigator Tablet.

Our Facilities

BALANCE HEALTH CLUB

Balance Health Club is outfitted with the latest generation of cardio and strength training equipment and offers 10,000 ft. of full-service facilities to replenish mind, body and spirit.

BALANCE SPA

Take time out from business or sightseeing for some pampering at Balance Spa, located on the 5th floor of the hotel.

BUSINESS CENTER

Stay productive with our self-service Business Center offering complimentary computer use as well as complimentary high speed internet access, copying and faxing services. Complimentary Connectivity Station also available at the lobby level.

Eat & Drink

LOCKWOOD BAR AND RESTAURANT

The menu at Lockwood features local, seasonally inspired American cuisine. Simple dishes are prepared with fresh herbs, vegetables and honey cultivated from the restaurant's rooftop garden.

POTTER'S

It is hip. It is chic. It is retro. It is amazingly modern. Potter's bar pays homage to some of the greats who played at The Palmer House, a Hilton Hotel way back when, yet exudes a contemporary flare.

STARBUCKS

Start the day of right with your favorite beverage, muffin or breakfast sandwich. Starbucks® is conveniently located on the street level of the hotel.

Hotel Activities

Please contact the concierge or visit the Hotel website for details.

MAGIC PARLOUR

Saturday nights at 4:30pm, 7:30pm and 9:30pm at the Palmer House.

AFTERNOON TEA

Enjoy a classic teatime in the famed lobby of The Palmer House Hilton. Reservations are required and must be made 24 hours in advance. Reserve by calling (312) 917-3404.

HISTORY TOUR

Explore the Palmer House's long and storied history in the capable hands of Ken Price, named best historian of 2014 by Historic Hotels of America. Our historic luncheon and tour begins at 12:00 p.m. with lunch at Lockwood. Tuesday-Saturday

**MEMBERSHIP INFORMATION****AAOP Mission**

The American Academy of Orofacial Pain, an organization of dentists and affiliated health care professionals, is dedicated to alleviating pain and suffering through the promotion of excellence in education, research and patient care in the field of orofacial pain and associated disorders.

AAOP Aims and Purposes

To establish acceptable criteria for the diagnosis and treatment of orofacial pain and temporomandibular disorders. To stress the significant incidence of orofacial pain problems for both medical and dental professions. To provide a base for annual meetings for the dissemination of research and treatment for orofacial pain and temporomandibular disorders. To support the Journal of Orofacial Pain stressing research and current studies on orofacial pain and temporomandibular disorders. To encourage and stress the study of orofacial pain and temporomandibular disorders at undergraduate and postgraduate levels of dental education. To provide a common meeting ground for world-wide authorities on orofacial pain and temporomandibular disorders. To encourage hospitals and dental schools to establish centers for treatment of orofacial pain and temporomandibular disorders. To encourage research and evaluation of equipment and procedures.

Benefits of AAOP Membership

- **Continuing Education.** AAOP's Annual Scientific--Meetings features cutting edge scientific knowledge with clinical take home value at a significant member discount. Members are also invited to attend member only symposia and workshops such as the Dental Sleep Medicine Symposium that was offered this past November. AAOP is working to develop mini-residencies, special interest groups and online continuing education. AAOP members are also invited to attend sister academy meetings around the world at the sister academy member rate. Members are encouraged to attain certification by the American Board of Orofacial Pain (ABOP) which is a requirement for elevation to Fellow of the Academy status. (ABOP is a separate organization who administers a board exam in orofacial pain)
- **Journal & Newsletter Subscription.** Subscription to the *Journal of Oral & Facial Pain and Headache*, Complimentary *Orofacial Pain Guidelines*, and the *AAOP Newsletter* including an online archive of past news. (Please note that student members do not receive the journal and/or guidelines)
- **The AAOP Website & Member Directory.** Inclusion in the AAOP Member Directory features a personalized profile page that can be linked with your professional website and all of your social media outlets. You control what information is presented to the public and to members.
- **Professional Networking & Development.** AAOP offers access to world renowned leaders in the fields of OFP, TMD, Headache, Sleep and other associated disorders. As a member you will have access to the Member Forum/List-serve, important professional development documents such as the OFP/ICD-10 Guide and information on the AAOP Member Directory that is not publically available. Whether you have a technical question, billing issue or are looking to expand your practice, AAOP leaders are available to assist you and our archive of documents is at your fingertips.
- **Patient Referrals and Information.** Prospective patients are visiting the AAOP website and looking for you. In addition the AAOP office is contacted directly by 100-200 prospective patients each year and they are directed to the member(s) nearest them. Various Patient Education Brochures are available at a nominal cost to AAOP members. Additional patient information is posted online.
- **Leadership/Participation.** All AAOP members are eligible to vote for academy officers/directors and on all important policy decisions. AAOP encourages its members, with an interest, to get involved in one of our committees. Your knowledge and opinions matter to us and your level of involvement is up to you. AAOP offers an annual leadership development program at no cost to its members.
- **Research and Training.** AAOP actively and financially supports research via annual grants. These grants are open to all professionals but the results of this research reaches AAOP members first. AAOP is also active within the dental school community. AAOP maintains the position of leadership within CODA when reviewing Orofacial Pain Programs at dental schools across the United States. Orofacial pain program directors meet annually at the AAOP meeting to discuss the current trends in OFP education and training.
- **Camaraderie.** AAOP is first and foremost about people. Many lifelong friendships and professional relationships have been fostered via AAOP membership. For 40+ years professionals like you have been coming to AAOP for scientific knowledge, clinical insights and the support of fellow colleagues.

AAOP Membership Categories

- (a) All members of the American Academy of Orofacial Pain {Academy}, including any and all categories of membership in the Academy, must agree to abide by the bylaws of the Academy.
- (b) All members of the Academy, including any and all categories of membership in the Academy, must agree to abide by the Code of Conduct of the American Academy of Orofacial Pain and be willing to work within the Academy's Objectives to promote the best interest and ideals of the Academy throughout said membership.
- (c) All Members of the Academy with the exception of the Retired, Life/Life Fellow & Honorary Membership categories must be a permanent resident of the United States of America, Canada, Mexico, Bermuda, the Bahamas or an independent Caribbean nation or
 - (1) Be a member in good standing of one of the Sister Academies as per the current Sister Academy Agreement regarding membership, or
 - (2) Have been a continuous member in good standing of AAOP and joined prior to 1987.

Active Members

Be a licensed dentist (DDS, DMD or equivalent degree) or be a licensed physician (MD, DO or equivalent degree) or be a non-dental or non-physician allied health care professional or researcher in good standing within the state or country within which they practice. Active Members shall possess the right to hold office, serve on the Academy Council or chair a committee. Active Members shall possess the right to vote in the election of officers, at the annual membership business meeting and for all items required to be presented to the membership of the academy for further action. Regular payment of dues is a requirement for maintenance of Active membership in the Academy.

Student/Initiatory Members

Shall be a current full-time dental or post-graduate dental student in good academic standing, and one of the following: (1) a licensed dentist (D.D.S., D.M.D. or equivalent degree) in good standing within the state or country within which they practice and a current participant of an Academy recognized post-doctoral full-time university residency program, or (2) a licensed dentist (D.D.S., D.M.D. or equivalent degree) in good standing within the state or country within which they practice and a graduate within the past 12 months of an Academy recognized post-doctoral full-time university residency program or (3) a full time, current undergraduate dental student with interest in temporomandibular disorders and/or orofacial pain or (4) be a licensed dentist (D.D.S., D.M.D. or equivalent degree) in good standing within the state or country within which they practice and enrolled in, or successfully completed within the past 12 months, an orofacial pain post-graduate or residency program not

described above and approved by council for student/initiatory membership. A full-time orofacial pain post-graduate or residency program must be consistent with current CODA accreditation standards. Student/Initiatory Members may serve on or chair a committee. Student/Initiatory Members shall possess the right to vote in the election of officers, at the annual membership business meeting and for all items required to be presented to the membership of the academy for further action. Student/Initiatory Members shall have all the add'l benefits of membership except a subscription to the AAOP designated journal. Regular payment of dues is a requirement for maintenance of Student/Initiatory membership in the Academy. Student/Initiatory Memberships must be transitioned to active membership within (12) months of completing their program and/or within (4) four years from date of joining.

Additional Membership Categories

Fellow, Retired, Life and Honorary Membership are elevated categories of membership available to members upon completion of additional criteria as stated in the AAOP Bylaws.

Additional Membership Criteria

In addition to the stated criteria listed in Membership Categories, Members Shall:

1. Agree to adhere to the Academy's Code of Conduct.
2. Be willing to work within the Academy's Objectives to promote the best interest and ideals of the Academy.
3. Be approved by Council upon recommendation of the Membership Committee.
4. Upon approval by Council, the membership at-large will be notified by written or electronic means of the pending applications and barring any written objection they will be accepted as members. If any objections are received, the application will be returned to the Membership Committee for further consideration.
5. Pay all annual dues as set by the Council on a yearly basis.

Please see the AAOP Bylaws on-line for additional Membership Information and also see the AAOP Statement of Aims and Purposes, Code of Conduct and Position Papers. Visit www.aaop.org.

Dues

The AAOP membership year is January 1st - December 31st. Members joining after September 1st of any year will receive the final few months of the current year at no additional cost.
